## EDUCATION

### Software Engineering

Adama Science And Technology University

06/2021 – 2026

Adama, Ethiopia

### Software Eng. | specializing back-end dev.

Alx Africa

2023 – present

## PROFESSIONAL EXPERIENCE

### Mobile | Flutter application Development

mINT

2024 – present

AddisAbaba, Ethiopia

- Developed mobile apps using Flutter, ensuring responsive interfaces and smooth performance on iOS and Android. Contributed to feature development, bug fixing, and optimization.

### Software Engineering Trainee

African To Silicon Valley

01/2025 – present

Adama, Ethiopia

- Collaborated with peers to solve algorithmic challenges and real-world problems, enhancing skills in data structures, algorithms, and competitive programming. Focused on building scalable, efficient solutions.

## PROJECTS

### Betlink

Flutter | Dart

Developed a mobile application that connects buyers and sellers of homes and properties, providing a seamless platform for browsing listings, communicating with sellers.

### CraveChronicles

Flutter | Firebase | Dart | OOP

Developed CraveChronicles, a social media app where users can share their taste experiences in real-time, chat with others, and share locations. Integrated Firebase for secure authentication and focused on delivering a smooth, interactive UI for a seamless user experience.

### CSEC ASTU

Flutter | Dart

Created the CSEC ASTU app to assist new students at Adama Science and Technology University by providing essential campus information, including maps, block numbers, and contact details. The app also features GPA/CGPA to help students track their academic progress and navigate university life effectively.

## AWARDS

### Hackthon

1st place winner

Participated in a hackathon and won first place by developing a mobile application designed to support students at ASTU. The app provides essential resources, Course Outlines, information, and tools to enhance the academic experience for students, helping them navigate university life with ease.

## SKILLS

Mobile App Development (Flutter)

Backend Development (API Integration)

Firebase Integration

Django python framework

Problem Solving & Algorithms (Competitive Programming)

Collaborative Development & Teamwork
